How Lewis Build became Auckland’s leading high-performance builder

With over 15 years in the industry, Lewis Build has set the standard for creating homes that are comfortable, energy-efficient, and built to last. Unlike most builders, we combine design optimisation, buildability, and high-performance expertise to ensure every dollar of your budget delivers exceptional quality and craftsmanship.

Ben Lewis’s journey from chef to builder instilled a commitment to detail and teamwork that still defines Lewis Build today.

Through hands-on experience with a traditional Dutch building company, Ben learned the importance of precision and hard work—values that have shaped our business since day one.

At Lewis Build, relationships matter. We guide clients through the building process with transparency and expertise, ensuring they feel confident and informed every step of the way. The result? More than a house—a home that exceeds expectations and stands the test of time.

our projects

Exquisite renovation of a 1900s villa

This architecturally designed Freemans Bay home features a full master suite on the top level with sweeping views of the city and Skytower. Earning a Silver award in the 2024 House of the Year awards, we also renovated the larger property next door.

Epic Italian-style masonry home

Set on a stunning site overlooking Rangitoto, this Italian-style statement home features breathtaking water views, seven bathrooms, five bedrooms, and a top-floor entertainment area. A true masterpiece, it showcases Lewis Build's dedication to excellence.

An elegant country retreat

This award-winning country home in Paerata combines charm with modern comfort. Set on a spacious South Auckland property, its expansive design mirrors the surrounding landscape. With four bedrooms, each with an ensuite, it's ideal for large families and guests.

Stylish, sustainable passive home

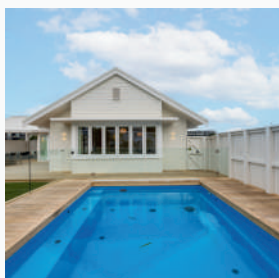

This stunning eco-build in rural West Auckland uses innovative materials to reduce energy use and promote healthy living. Designed by Bonham Architecture & Interiors, it features polished concrete floors, floating stairs, and an elevator.

our services

At Lewis Build, we specialise in crafting high-performance new builds, restoring and renovating villas, and creating stunning country and lifestyle homes. From energy-efficient passive designs to luxurious waterfront properties, our expertise ensures every project is tailored to your vision, blending timeless craftsmanship with modern innovation.

High performance new builds

Crafting energy-efficient homes with cutting-edge materials and precision design, delivering exceptional comfort, sustainability, and long-term value.

Villa renovations & restorations

Breathing new life into character villas while preserving their timeless charm, blending heritage details with modern functionality.

Rural and lifestyle homes

Creating spacious, bespoke homes tailored to rural and lifestyle properties, designed to enhance their natural surroundings.

what other homeowners say

Choosing the right builder for your custom home or renovation is a big decision (that too often feels like a risky gamble). With over 60 five-star reviews from satisfied clients at the time of writing, we're proud of the trust and recognition we've earned:

Jason, Takapuna

"A fantastic team at Lewis Build... they delivered on time and to great quality. We are super pleased with our new build."

Natalie, Ponsonby

"Lewis Build have been phenomenal... delivered a BEAUTIFUL home while handling council curveballs with grace."

Divnil, Whitford

"Very fast, professional, and transparent... Highly recommend them for any new builds/renovation projects."

Clara, Takapuna

"... the entire team at Lewis Build is professional, approachable, and simply excellent at what they do."

Rangana, Mt Wellington

"We had an outstanding experience with this team and highly recommend Ben Lewis and his crew... Most people have horror stories about their renovations - not us - hard to believe but absolutely true. Couldn't recommend them any higher."

“

**"Ben is a thoughtful,
genuine man who is
really client-focused.
The sort of builder that
gives the industry a
good name."**

common concerns

How can I trust the fixed price when so many builders add extra costs later?

Lewis Build ensures transparent pricing, with the agreed price delivered and any potential variations clearly communicated upfront for your peace of mind.

Is Lewis Build too small to handle my high-end project?

Lewis Build has a proven track record of managing large, high-end builds, including multi-million-dollar homes. We deliver complex projects with the precision and expertise of larger firms while providing a more personalised touch.

Do you have enough experience with high-performance homes?

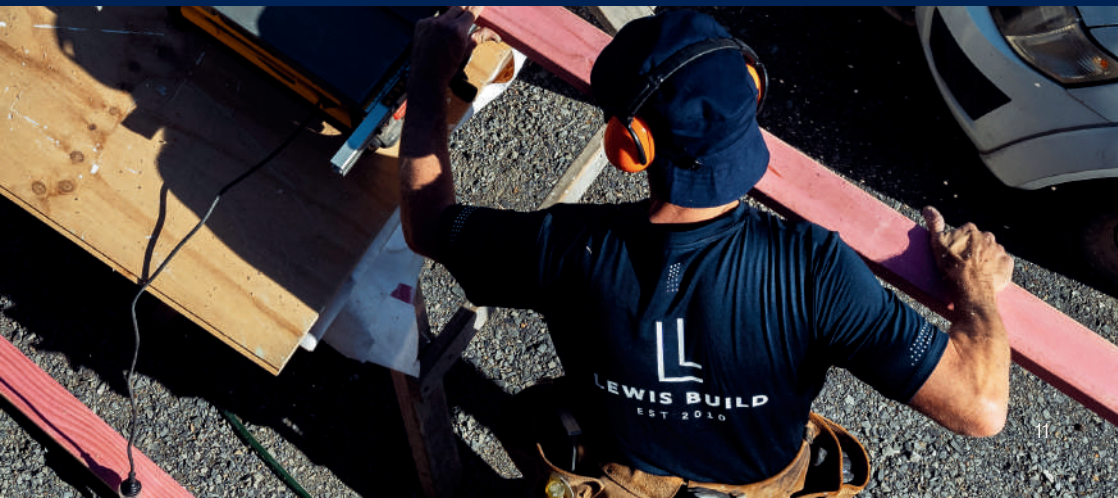

Lewis Build is certified by High Performer Builder and has won a Gold Award for a fully passive home.

I've heard horror stories about builders cutting corners—how can I be sure Lewis Build won't do the same?

At Lewis Build, our in-house team and award-winning craftsmanship ensure no corners are cut. Every project undergoes meticulous quality assurance, with our foremen personally inspecting each stage. Our track record, recognised by industry awards and peer reviews, speaks for itself.

How do I ensure the quality of work meets my expectations?

Choosing a reputable builder is crucial to ensuring a high-quality result. Look for a contractor with strong reviews and a portfolio that aligns with your vision. Request regular site visits so you can monitor progress. Discuss warranties and ensure adherence to building codes and standards to avoid costly repairs down the road.

our guarantee to you

Our homes are delivered with the certainty of a fixed price and timeline, by our in-house team of master craftspeople, giving you one of the most comfortable, high-quality homes in Auckland.

Transparent pricing

The price we agree on is the price you'll pay, with clear communication about any potential variations—no hidden surprises.

Experience you can trust

From multi-million-dollar high-end homes to high-performance passive builds, our proven expertise ensures your project is in capable hands.

Commitment to excellence

Every project we take on is held to the highest standards, supported by certifications like High Performer Builder and recognition in industry awards.

10-Year Guarantee

With our 10-Year Master Build Guarantee, you can have peace of mind knowing that the quality of your home is covered, offering protection against any structural issues for years to come.

Exceptional craftsmanship

We uphold meticulous quality standards, with our foremen personally inspecting every detail to ensure perfection. We never cut corners, and our award-winning track record proves it.

Personalised service

We combine the precision of larger firms with the personalised attention of a dedicated team, ensuring a seamless and enjoyable building experience.

On-time delivery

Your project will be completed within the agreed timeframe, without compromising on quality.

Sustainable practices

We are committed to incorporating sustainable building techniques and materials, including expertise in energy-efficient homes.

Three steps to the home you've always wanted

Step 1: Design

Your home design is everything. Miss something, and you might regret it for years. Get it right, and you'll enjoy a lifetime of comfort in your dream home. That's why our design team works closely with you to refine your ideas and create a 3D Living Plan. This ensures every detail is perfect, giving you confidence that your home will be exactly what you've envisioned.

Step 2: Deliver

While most homes are built by general subcontractors, your Lewis Build home is crafted by our in-house team of experts, with every step monitored by the company owner. Our proven processes ensure everything runs smoothly—on time and budget. Clear communication keeps you fully informed, so you enjoy the experience stress-free and without surprises.

Step 3: Support

Construction is efficient, yet never rushed, with every detail rigorously inspected to ensure the highest quality in foundation, frame, and finishes. When we hand you the keys, we will all be able to stand back and feel proud of what we have created together. And we will continue to support you with our priority local Warranty and Fine-Tuning Programme.

our awards

Your assurance of supreme quality— four awards of excellence

You may be shocked to discover that many building awards don't mean much and tell you very little about the quality of the builder, because they are designed by industry suppliers as a type of reward programme to entice builders to buy their products. But a Registered Master Builders House of the Year award is undeniable proof of quality. Because the criteria list is long, the inspectors are fastidious, and every blemish costs the builder valuable points.

So, whether it's a Gold, Silver or Bronze, any Registered Master Builders House of the Year win is confirmation of supreme quality.

We are proud to have won two Golds, a Silver, and a Bronze.
